

International University of Rabat (UIR)

ICT Research Laboratory (TICLab)

Postdoctoral position opening in Deep Learning for Spatio-Temporal Data

A postdoctoral research fellow with expertise and interest in Machine Learning is sought to join the ICT research lab (TICLab) of the International University of Rabat (Morocco). The successful postdoctoral fellow will investigate deep learning in the context of spatio-temporal data. The position is for one year.

The successful candidate must have a PhD in computer science, data science or a related field, with a solid background in machine learning. The candidate should be highly motivated, have demonstrated ability to work independently, have strong publications in machine learning, and have strong oral and written communication skills in English.

Application materials should include: (1) cover letter, (2) statement of professional goals, (3) detailed CV, (4) up to three relevant research papers by the applicant, (5) list of 3 references (names and contact information).

Applicants are encouraged to submit their application materials as soon as possible. The application deadline is 20th November 2019. Applications should be emailed to recrutement-ticlab@uir.ac.ma and ticlab-admin@uir.ac.ma.
